

RII40720 Certificate IV in Civil Construction (Supervision)

Course Overview

This qualification reflects the role of employees working in supervisory positions in civil construction, performing tasks involving a broad range of varied activities most of which are complex and non-routine. They are responsible for the safety, efficiency and quality of work of others, contribute to the development of technical solutions to non-routine problems and apply management plans to the workplace.

Course Delivery

Training and assessment will be a combination of on-site and in classroom block training at an Australian Training Management facility. Students will be required to complete student record books and unit specific logbooks.

Entry Requirements

All students will take a Language, Literacy and Numeracy (LLN) test during enrolment. This helps us offer any needed support. If you don't meet entry requirements, we'll connect you to support services.

All students must work in civil construction and hold a Construction White Card before training starts.

Course Duration

The average course duration for **RII40720 - Certificate IV in Civil Construction (Supervision)** is 18 months.

Fees

Funded: Students registered through a traineeship/apprenticeship pathway may be eligible for funding through the Jobs & Skills WA, lower Lees, Local Skills Program. Fees will depend on units selected. The student tuition fees are indicative only and are subject to change given individual circumstances at enrolment. Additional fees may apply such as student services and resource fees.

The CTF provides funding support for training of eligible workers in the construction industry. We acknowledge the support of the CTF in reducing the costs of training for eligible workers.
